

## Center Bank protects its valuable data with Somansa's Mail-i.

**Center Bank** is a full-service commercial bank founded in March of 1986 in Los Angeles. The bank provides comprehensive financial services for small to medium sized business owners in the greater Los Angeles area. Eighteen banking offices and eight loan production offices located throughout the region give convenient access to customers in major residential and commercial communities. By providing personalized service and innovative banking products, Center Bank has established itself as one of the most successful leading banks within the community. Since its inception in 1986, Center Bank has grown to \$2 billion in assets from a mere \$4 million initial capitalization.

As a financial institution, Center Bank is required to comply with U.S. federal regulations and industry laws such as Gramm-Leach Bliley Act (GLBA), State Data Privacy Laws, and e-Discovery. Center Bank (CLFC) is a well respected publicly traded company in the NASDAQ and values the brand and its customer's trust.

After evaluating several other solutions, Center Bank selected Somansa's Mail-i to identify and protect confidential company and customer information. "The majority of our customer and confidential company information is stored in electronic format," said Jae Choi, Director of IT for Center Bank. We needed a solution that would protect our data and meet compliance and regulatory rules."

Using Somansa's Mail-i, Center Bank protects its confidential company data and over 500 employees along with thousands of customer's bank account information. Mail-i secures Center Bank's data by monitoring all outgoing electronic communication including corporate email, web-based email, instant messenger, FTP, and P2P protocols. Once a Mail-i policy is violated, administrators are immediately alerted. All of Center Bank's electronic messages including attached files are archived and retrievable using Mail-i's quick search option to comply with federal and industry regulations and e-Discovery rules.

### Product:

- Mail-i

### Mail-i Benefits:
